

L.F. Driscoll Co. is the largest locally-based construction management firm in the Philadelphia area. We pride ourselves on excellence, which only comes from the quality and commitment of our employees.

Driscoll offers an exceptional team of construction professionals who have been serving New Jersey, Pennsylvania, Delaware, and Maryland since 1929. We are ranked annually by Engineering-News Record as one of the "Nation's top Construction Managers At-Risk."

As a construction manager, Driscoll brings the project to life.

We assure that each endeavor undertaken is a work of quality and value that is accomplished safely and on time. We make the client's vision reality by assuring these cornerstones through each step of the way, being an integral player from the initial concept through occupancy.

Additionally, Driscoll advises the owner and design team on issues such as the availability of experienced construction labor, the ability of the local construction industry to handle particular construction techniques and the cost and availability of building materials.

EXCITING PROJECTS

Our current endeavors continue to show the excellence and prominence of the company in the Philadelphia area, providing services for a wide range of industries such as Arts/Sports/Entertainment, Assisted Living, Commercial, Education, Healthcare, Hospitality, Industrial, Restoration/Rennovation, Residential, and Retail.

Some current and recent projects include The Children's Hospital of Philadelphia, Williamsport Hospital, The Philadelphia Museum of Art, Hershey Medical Center Children's Hospital, Jersey Shore University Medical Center and the Barnes Museum.

Locally
Committed

Nationally
Recognized

By providing strong leadership, our firm has demonstrated an outstanding record of performance in the four key measures of success: quality, safety, schedule and budget. Our Quality Control commitment establishes pride in the construction and strengthens our commitment to providing a finished product worthy of everyone's endeavor. This commitment and customer satisfaction with our Quality Control program can best be seen in that 85% of our current business is from repeat customers.
